

SPECIAL HANDLING

No. 63-090

25 September 1963

Jim

Dear Jim:

In our recent phone conversation I think I pointed out that the total requirement of [] indicated on the spread sheet for Fairchild's Contract FI-5777 was short. I presume you talked to [] to get [] As you can see from the attached memorandum confirming the negotiations the [] consists of the basic fixed price of [] plus a fixed price of [] for spares. It appears, however, that Jerry failed to give you the cost of the field support of [] which will be handled as a separate T&M contract at some later date when the field support is required. In any event this should be in FY-1964 and I am, therefore, asking you to get this [] back into the budget if at all possible.

Sincerely,

Art
